EXPERIENCE

The Advisory Board Company

Consultant, Data & Analytics Specialist — 2015 – 2017
- Led consulting engagements with hospitals and health systems to revitalize hospital revenue cycle, bring cultural changes to physician documentation, and shape hospital price transparency strategy and practices. Consulted with up to 15 clients at a time
- Served as de-facto product manager for physician documentation and price transparency engagements, ranging from coordinating cross-department efforts to analyzing impacts, leading internal discussion, and acting as a go-to thought leader
- Planned & led a variety of individual and group training sessions ranging from data analytics to meeting facilitation and onboarding sessions. Solely developed and executed a department-wide Excel education series that was extremely well-received by colleagues

Senior Data Analyst — 2014 – 2015
- Established reputation through consistent high-quality work and teaching skill as the go-to expert for data analysis, day-to-day questions, and professional development
- Developed several Excel macros using VBA to automate analyses and improve efficiency
- Supported marketing efforts through data support and oversight. Transformed outreach methodology by using public data to calculate individualized hospital financial opportunity

Finance Admin — 2013 – 2014
- Collaborated in oversight and review of business unit performance on monthly basis
- Designed dashboard evaluating all business units' personnel investments & expenses

Turner Construction Company

Assistant Project Manager & Field Engineer — 2012 – 2014
- Coordinated project operations, budgeting, scheduling, and logistics with owners, architects, and subcontractors across multiple construction sites in the Washington, DC area

SAP & Accounting Assistant — 2012 – 2013
- Led conversion of accounting portfolios to SAP; designed and led SAP training for accounting staff; developed training manual for accounting use cases
